At RAINBOW PUBLIC SCHOOL children enter the school of learners in which each will have a place to belong and a way to contribute in his or her own individual way. Each child has a unique pattern of growth and development. Our educators are responsive to individual differences in ability and interest.

RAINBOW PUBLIC SCHOOL addresses each student's varied levels of emotional, physical, and intellectual development. A broad education cannot be confined within the walls of a classroom. Our excellence in academic study is complemented by an extensive range of innovative sessions & extracurricular activities in order to involve students and channelize their energy, spirit and creativity.

Besides academic excellence and intellectual development, the school endeavours to help each child discover and develop his/her innate talents and abilities. It seeks to instil in the children proper habits, positive attitudes and values such as honesty, unselfishness, self-respect, self control, sense of duty, good manners, fair play, team spirit, dignity of labour, punctuality, compassion, freedom of mind with a rational and scientific approach.

The School has highly qualified, experienced teachers for imparting education and guidance to the children and help build up their self-confidence, prepare them for their future careers as well as inculcate in them the basic values which are important for self development and good citizenship. Special attention is paid to facilitate the physical, mental, emotional and social growth of the child through a series of well coordinated activities. We develop qualities of body, mind and character which will enable the young boys or girls of today to become good and useful citizens of tomorrow and excel in all walks of life.
